

Diana Acheson developed the child development workshops as part of Kids Discover in response to parents requesting them. Her work with teachers has taken her all around Australia, teaching them more about child development so they could implement that knowledge into their everyday teaching.

Although, in her Kindermusik classes, parents are taught about the brain research behind the activities, they were left wanting more information about their child and how they could help their child to learn more easily.

As a result, Diana has now brought this information down to a parent level, explaining complex issues in easy to understand terms. Parents are also given practical activities that they can use at home to stimulate their child's learning.

The workshops are interactive, with moments of learning while sitting, interactive activities on the floor and work shopping together in small groups to better understand the concepts. Diana believes that learning should be fun and that children learn more deeply when positively connected to an activity on an emotional level. That concept is also conveyed in her workshops for parents where they will learn in a fun, interactive and stimulating environment.

Come and enjoy a session and learn about your child and how they learn. This knowledge is not found anywhere else and these workshops for parents are the first of their kind.

Bookings and payment are essential and can be made in the following ways:

- Telephoning 4635 9329
- In person at Kindermusik, in Mackenzie St (address below)
- Over the internet (go to www.kidsdiscover.net)
- Posting in the form to the Mackenzie St address

Cost is \$79.00 per workshop

Workshops are 2.5 hours long and include morning/afternoon tea.

Want to know more about your child's development?

Want to know how to help your child read better, be more self confident and learn more easily?

We can help!

*Child Development Seminars ...
Unlocking Your Child's Potential*

Diana Acheson

BA(Mus), Qld Con
Grad Dip Ed (Chidcare) USQ

Diana Acheson is a national speaker, educator and international mentor. Her roles have been vast and varied and include everything from child, parent and teacher education. She has written

curricula, and for the past 6 years has been a mentor for the Australasian region, traveling around Australia training teachers in child development and teaching strategies.

Diana has over 20 years experience with children with special needs and has taught children for over 26 years. Her passion lies with teaching parents about child development so they can help their children reach their potential. Diana also trained in sound therapy and sensory integration over 5 years ago. Her accumulative knowledge means she can help both children and parents of all ages.

Diana has won both national and international awards for her teaching including:

- 2002 Maestro (top 5 Kindermusik studios in Australia)
- 2003 Maestro (to 5 Kindermusik studios in Australia)
- 2004 Maestro in Outreach (only one to ever be given outside the US for work with children with special needs)
- 2008 Maestro (top 2 Kindermusik studios in Australia)

Seminar 1

Brain Development and Your Child

Seminar 1 will deal with your child's brain development. This is a topic that parents don't know much about, but after this workshop you will know how to stimulate your child's environment and what to look out for to make sure your child is learning.

You will learn:

- About brain architecture and how you can help your child have good brain structure
- What types of activities stimulate brain growth
- Practical suggestions for stimulating your child's learning environment
- How and when a child's brain grows
- Various ages and stages of brain growth
- Brain connectivity - when and how it develops and what part the myelin sheath plays in learning
- What part brain connectivity plays in your child's learning and how to make sure the experiences you are giving your child allows the connectivity to happen
- Processing speed - how fast your child processes information and how you can help them processes at optimum speed
- What effect processing speed has on learning
- How experiences in early life are going to help learning when your child gets to school

Join us for a workshop

Our workshops are held at the Kindermusik studio at Southridge Shopping Centre. Plenty of room for our interactive activities, it has easy parking, has easy access and pleasant surroundings. If you are posting in your booking, please include the section below:

Please book me into the child development workshop on 28th April, 2008.
